

# ARTEM VANZYTLE

---

## PYTHON DEVELOPER

### CONTACTS

- +380987956078
- artem.vanzytler@gmail.com
- linkedin.com/in/artem-vanzytler/
- github.com/teredet
- Kyiv, Ukraine

### EXEPERIENCE

Development of pet projects.

#### Parser

Nov 2021 -  
Jan 2022

I wrote this program to monitor vacancies from different sites at the click of one button. The program takes information from the following sites: djinni.co, douua, workua, rabota.ua.

*Environment & tools:*

Python, BeautifulSoup4, Requests

#### Shop

Jan 2021 -  
May 2021

My first project in the field of e-commerce. One of my first and biggest projects that I created while studying Python and Django.

*Environment & tools:*

Python, Django, Pillow, SQLite

#### ToDo

May 2021 -  
Jun 2021

To-Do Website on Django. With a beautiful design, authorization and search for tasks. And with a counter of uncompleted tasks.

*Environment & tools:*

Python, Django, SQLite

#### Kyvi-calculator

Nov 2021 -  
Nov 2021

Calculator written in Python. The user interface is written using the Kyvi library.

In addition to standard arithmetic, the following tools are implemented: root of a number, square of a number, division without remainder, remainder of division.

*Environment & tools:*

Python, Kivy

#### Chat

Jul 2021 -  
Aug 2021

Asynchronous client-server Chat with PyQt5 interface.

*Environment & tools:*

Python, PyQt5, Twisted

### EDUCATION
